

Oct. 30th – Nov. 3rd

Curriculum Updates

This week our focus has been on “God loves us no matter how short or how tall.” Throughout the week, we took each child’s height and made a chart combining all 17 different heights. We did an activity with the children, asking them to line up shortest to tallest...showing them that everyone is different but God loves us the same. There were also a couple coloring crafts and song sessions.

We continued working with the children on the letter E and introduced the letter F, the color white, the number 6 and 7, the animal frog, and the hexagon shape.
